

AI Founder Hub

IDEA → APP → INCOME

DUBAI'S LAUNCHPAD FOR **AI BUILDERS.**

The community where non-technical founders learn to build and ship real AI products.

AI Founder Hub

FOUNDERS: AHMED & ZAIN

EVERYONE WANTS TO BUILD WITH AI. *almost no one can.*

LOCKED OUT

Founders, freelancers and operators are stuck watching the AI wave from the sidelines.

THEORY, NOT SHIPPING

Tutorials and self-paced courses teach concepts. They do not put a working product in your hands.

THE IDEA-TO-BUILT GAP

The distance between "I have an idea" and "it is live and earning" has never felt wider.

Self-paced video courses finish at roughly 10% completion. Source: industry data via SNS Insider, 2026.

WE TEACH YOU TO *ship*, NOT JUST TO LEARN.

A community plus a structured program that turns non-technical people into AI builders. Live masterclasses, an all-access membership, and a hands-on bootcamp.

YOU LEAVE WITH

OUR **AI AGENTS** RUN OUR GROWTH.

We do not just teach AI. We operate on it. A stack of agents runs the company's marketing so growth scales without headcount.

CONTENT AGENT

Creates and schedules social content across every channel, on brand, every day.

ENGAGEMENT AGENT

Runs community replies and DMs, turning attention into signups around the clock.

BUDGET AGENT

Allocates the ad spend, tests creative, and targets audiences to cut wasted budget.

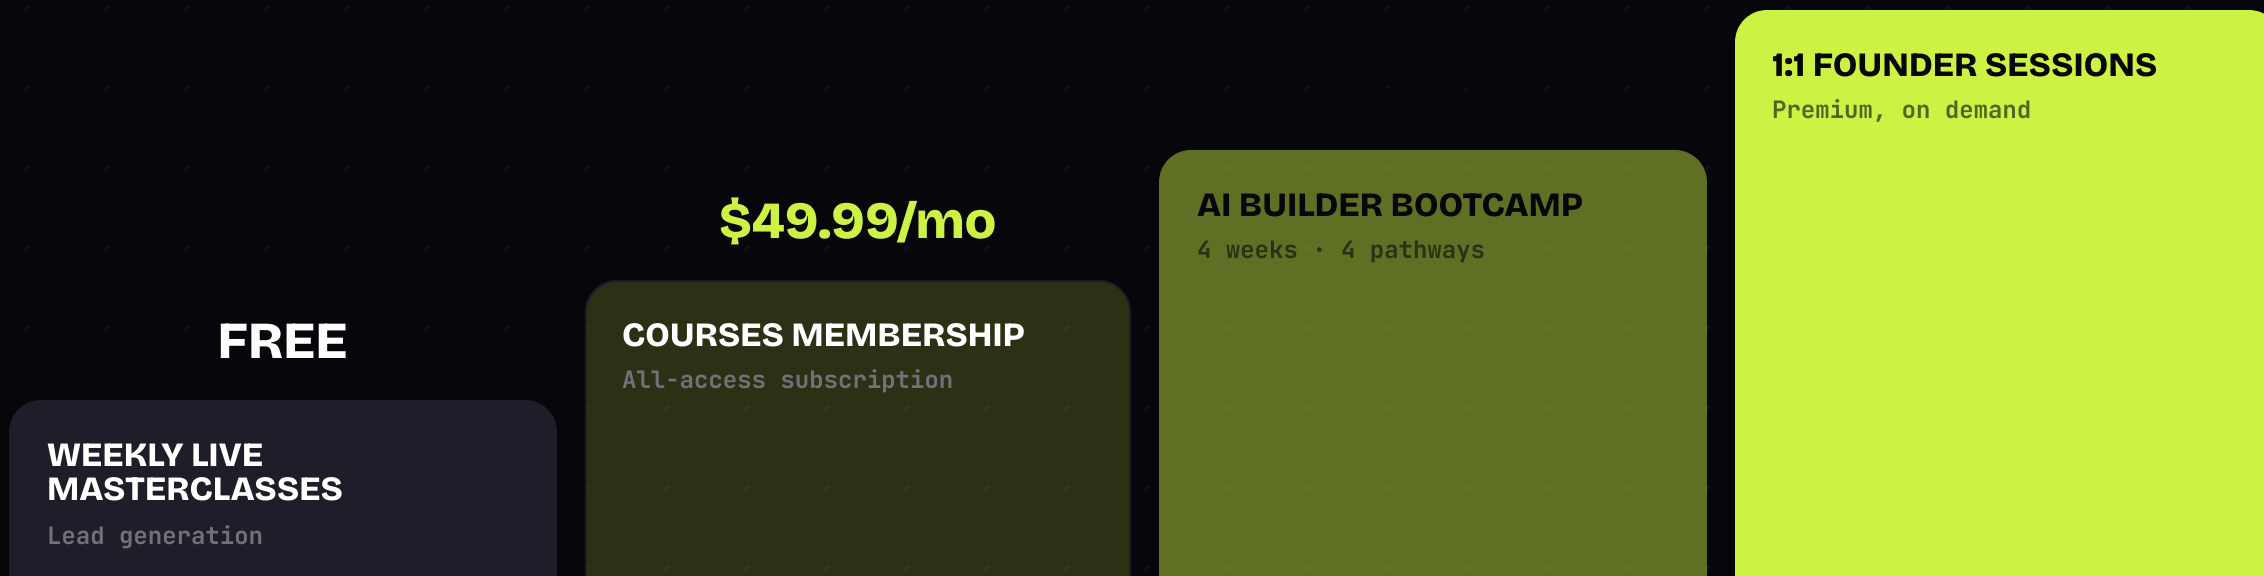

Designed for lower **CAC**

Content that scales **without hires**

Later, a **product we sell** via the Automation Agency pathway

A REVENUE *ladder*, NOT ONE PRODUCT.

Plus free and paid in-person Dubai events. Each tier feeds the next: free attendees convert up the ladder.

RIGHT SKILL. RIGHT CITY. RIGHT MOMENT.
